Taxation Switzerland

Swiss Federal Stamp Duty	For Swiss stamp duty purpose, the Product is treated as analogous to a bond. Therefore, secondary market transactions are in principle subject to Swiss stamp duty (TK22).
Swiss Federal Income Tax (for private investors with tax domicile in Switzerland)	<p>For tax purposes this Product is classified as transparent, where the majority of the return of the bond part is in the form of a discount or of one payment on the Redemption Date (IUP). Therefore, for private Investors with tax domicile in Switzerland holding the Product as part of their private property, the Guaranteed Coupon Amount(s) on the relevant Coupon Payment Date(s) or on the Redemption Date and the increase of the value of the bond part (according to the "Modifizierte Differenzbesteuerung") at sale or at redemption is subject to the Federal Direct Tax. The present value of the bond part at issue is the Bondfloor per unit. An Investor who buys the Product at issuance and holds it until Redemption is taxed on the difference between the Bondfloor at the Issue Date and the Bondfloor on the Redemption Date as well as on the received Guaranteed Coupons.</p> <p>However, any gain derived from the option is considered as capital gain and is therefore not subject to the Federal Direct Tax for such taxpayers.</p> <p>The tax treatment regarding the cantonal and communal income taxes can differ from the tax treatment regarding the Federal Direct Tax. But in general the income tax treatments are corresponding.</p>

Swiss Withholding Tax

The following part(s) of the Product is/are subject to the Swiss withholding tax: Coupon Amount(s) on the Coupon Payment Date(s) and the positive Bondfloor difference (Bondfloor at redemption minus Bondfloor at issuance) on the Redemption Date.

On 1 January 2017, Switzerland has implemented the Automatic Exchange of Information in Tax Matters ("AEOI") with the EU and Australia, Jersey, Guernsey, Isle of Man, Iceland, Norway, Japan, Canada and South Korea. Switzerland is also negotiating the introduction of the AEOI with other countries. In this context, the EU Savings Tax for Swiss paying agents and the Final Withholding Tax with UK and Austria was repealed.

The tax information is a non-binding summary and only provides a general overview of the potential Swiss tax consequences linked to this Product at the time of issue. Tax laws and tax interpretation may change at any time, possibly with retroactive effect.

Investors and prospective Investors are advised to consult with their tax advisers with respect to the Swiss tax consequences of the purchase, ownership, disposition, lapse or exercise or redemption of a Product in light of their particular circumstances. The Issuing Parties and the Lead Manager hereby expressly exclude any liability in respect of any possible tax implications.

Information with regards to bondfloor taxation

Updated bondfloor information, if a bondfloor is applicable to the Product (according to "Product Details" and "Taxation Switzerland" herein), can be found on the following web page of the Swiss Federal Tax Administration (FTA): www.ictax.admin.ch. The Investor must be aware that for tax purposes the value of the bondfloor is converted into Swiss Francs (CHF) at inception/purchase as well as at sale/redemption of the Product, in case the Product is denominated in another currency than CHF. Thus, the Investor is exposed to the foreign exchange risk with regard to the taxable income calculation and thus also the withholding tax calculation, if applicable. However, withholding tax on the bondfloor only applies if the Bondfloor at redemption (in %) is greater than the bondfloor at issuance (in %).
